GIFFORD PINCHOT MAY FILE A BRIEF

Former Chief Forester Asks to Be Heard on Cunningham Claims.

PERMISSION IS SECURED

Status of Matter Explained by the President's Secretary, Charles D. Norton.

Washington, Nov. 15.—President Taft, responding to the question of Gifford Pinchot, former chief forester of the United States, and his brother, Amos Pinchot, on the question of issuing patents in the Cunningham-Alaskan coal land claims, has informed Mr. Pinchot that he may submit such a brief and advised him to forward it to the executive office before December 1.

Mr. Pinchot was thus informed in a letter authorized by President Taft, written by the secretary to the President, Charles D. Norton, and made public today. The letter is in reply to a recent communication to the President from Mr. Pinchot and his brother expressing fear that the interior department would recommend the patenting of the Cunningham claims.

President's Reply.

Following is the text of the letter.

"November 9, 1910.
"Gentlemen—I am directed by the President to acknowledge the receipt of your letter of November 7, and to reply as follows:
"On the first of June last, the secretary of the interior invited attention of the President to the Cunningham coal claims consisting of thirty-three coal entries in the Juneau land district of Alaska of approximately 160 acres each, and suggested that in view of the unusual character of these claims, and in view of the public interest relating to the disposition of these claims, the President directs that no final action be taken by the general land office looking to the issuance of patents therefor without first advising the President of the action contemplated.

"Under date of June 6, 1910, the President issued the order recommended and on June 8, 1910, this order was communicated to the commissioner of the general land office and that official issued orders to his subordinates in addition to this direction.

May File a Brief.

"The President further directs me to say that if you desire to submit a brief on issuing these patents you may do so and forward the same to his office. He is not advised when the evidence will be submitted to him, but he thinks he would be well if your brief were presented before the first of December.

(Signed) "Very truly yours,
"CHARLES D. NORTON,
"Secretary to the President."

Mr. Pinchot's letter to the President and the reply of Secretary Norton constitutes the only exchange of communication between the White House and the former forester since the executive action dismissing the latter.

ATTACKED BY BEAR.

Wilburton, Okla., Nov. 15.—While hunting near here yesterday, J. W. Williams was attacked by a bear and seriously injured. Believing a wildcat was in a thicket, Williams tried to kill it, when the bear rushed on him, he fled, but was soon overtaken and crushed to the ground. Williams' dogs rushed in and attacked the bear, driving it away and saving the hunter's life.

The Secret of Sexine Pills.

There isn't any. Their wonderful effects are simply the result of a scientific combination of the best remedies that are known in medicine for the upbuilding and rejuvenating of tired, weak and worn men and women. They act on the blood in such a manner that the user is soon imbued with new life and hope and happiness. Price \$1 a box; six boxes \$5, fully guaranteed on the money-back plan. Address or call Schramm-Johnson's Drugs, 5 stores, Where the Cars Stop—where they sell all the principal remedies and do not substitute.

If the thing you want to buy today is not advertised, perhaps it's not a good day to buy it. However, it probably is.

FINANCIAL WEST

USED IN THE EAST

Wall Street Borrowers Anticipate Withdrawal by End of Year.

Washington, Nov. 15.—Following the recent call for a national bank statement, great interest attaches to the financial condition of the banks of the country. The letter is in reply to a recent communication to the President from Mr. Pinchot and his brother expressing fear that the interior department would recommend the patenting of the Cunningham claims.

It seems generally known among bank officials that a great deal of money belonging to the interior banks placed on call for Wall Street probably will be withdrawn before the end of the year, and the best advice today is to keep the money in the interior banks. It is believed that the interior banks are being used by Wall Street to finance the operations of the interior banks, and that the interior banks are being used by Wall Street to finance the operations of the interior banks.

RAILROAD TO VERNAL

Information Is Received to Effect That Utah Line Will Be Extended to the Town.

Vernal is to have a railroad, according to information received in Salt Lake City. The Utah railroad, running from Marysville, Oregon, to Vernal, owned by the Barber Asphalt company, was constructed to reach the great beds of asphaltum in the Vernal area. It is said that this road is to be extended to Vernal, and that surveying work of laying out the new line, from the boundless beds of asphaltum in the Vernal area, and the Barber Asphalt company, and the Denver & Rio Grande haul a large portion of the asphaltum output of the world.

The road has paid from the time of its construction, several years ago, and it is believed that still more profitable traffic can be opened up through the extension from Dragon to Vernal.

RAILROAD IS PENALIZED.

The Denver & Rio Grande railroad was found guilty of violating the 28-hour law governing cattle hauling by the petty jury in the United States court yesterday, and fined \$250.
